#### **Independent Auditor's Report**

Honorable Mayor and City Council City of Sand Point, Alaska

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Sand Point, Alaska, as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the City of Sand Point's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Sand Point, Alaska, as of June 30, 2018, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### Change in Accounting Principle

As discussed in Note 11 to the financial statements, in 2018 the City adopted the provisions of Governmental Accounting Standards Board (GASB) Statement Number 75, Accounting and Financial Reporting for Postemployment Benefits Other than Pensions. Our opinion is not modified with respect to this matter.

#### Other Matters

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the budgetary comparison information on page 42 and the Schedules of Net Pension and OPEB Liability and Pension and OPEB Contributions on pages 43 through 46, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the Management's Discussion and Analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

#### Supplementary and Other Information

Our audit for the year ended June 30, 2018 was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The combining and individual fund financial statements and schedules for the year ended June 30, 2018 are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

We also previously audited, in accordance with auditing standards generally accepted in the United States of America, the basic financial statements of the City of Sand Point as of and for the year ended June 30, 2017 (not presented herein), and have issued our report thereon dated January 9, 2018 which contained unmodified opinions on the respective financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information. The individual fund financial statements and schedules for the year ended June 30, 2017 are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the June 30, 2017 financial statements. The information has been subjected to the auditing procedures applied in the audit of the 2017 basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare those financial statements or to those financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the individual fund financial statements and schedules are fairly stated in all material respects in relation to the basic financial statements as a whole for the year ended June 30, 2017.

#### Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated January 24, 2019, on our consideration of City of Sand Point's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City of Sand Point's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering City of Sand Point's internal control over financial reporting and compliance.

Anchorage, Alaska January 24, 2019

BDO USA, LLP

# Reconciliation of Governmental Funds Balance Sheet to Statement of Net Position

June 30, 2018

| Total fund balances for governmental funds   |  | \$ 4,225,293   |
|--|--|----------------|
| Total net position reported for governmental activities in the<br>Statement of Net Position is different because:  |  |                |
| Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds. These assets, net of accumulated depreciation, consist of: |  |                |
| Land Buildings Improvements other than buildings Equipment and vehicles  | \$ 40,0<br>8,726,2<br>4,568,0<br>1,937,1 | 86<br>69       |
| Total capital assets   | 15,271,4                                 |                |
| Accumulated depreciation   | (7,809,9                                 | 47)            |
| Total capital assets, net  |  | 7,461,521      |
| Noncurrent liabilities are not due and payable in the current period and therefore are not reported as fund liabilities.  These liabilities consist of:  Accrued leave             | (38,6                                    | 74)            |
| Net pension liability  Net other postemployment benefits liability   | (1,214,1<br>(196,9                       |                |
| Net other posteriprogrient benefits hability   | (170,7                                   | <del>71)</del> |
| Total noncurrent liabilities   |  | (1,449,799)    |
| Certain changes in net pension and net other postemployment benefits liabilities are deferred rather than recognized immediately. These items are amortized over time:             |  |                |
| Deferred outflows of resources related to pensions   | 124,1                                    | 62             |
| Deferred inflows of resources related to pensions  | (178,3                                   | =              |
| Deferred outflows of resources related to other postemployment benefits  | 32,8                                     |                |
| Deferred inflows of resources related to other postemployment benefits   | (118,6                                   | <u>84)</u>     |
| Total deferred pension and other postemployment benefits items   |  | (140,057)      |
| Total Net Position of Governmental Activities  |  | \$ 10,096,958  |

# Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances

|                                      | Major Fund                            | <u>_</u>   | Total   |

# Reconciliation of Change in Fund Balances of Governmental Funds to Statement of Activities

Year Ended June 30, 2018

| Net change in fund balances - total governmental funds                                   | \$<br>287,762  |
|--|----------------|
| The change in net position reported for governmental activities in the                   |                |
| Statement of Activities is different because:  |                |
| Governmental funds report capital outlays as expenditures.                               |                |
| However in the Statement of Activities, the cost of these                                |                |
| assets is allocated over their estimated useful lives and                                |                |
| reported as depreciation expense. This is the amount by                                  |                |
| which depreciation (\$756,516) exceeded capital outlays (\$250,996) in the current year. | (505,520)      |
| Some expenses reported in the Statement of Activities do not                             |                |
| require the use of current financial resources and therefore,                            |                |
| are not reported as expenditures in governmental funds.                                  |                |
| Decrease in accrued leave  | 19,344         |
| Decrease in net pension liability and related deferred outflows and inflows of resources | 119,567        |
| Decrease in net other postemployment benefits liability and related deferred             |                |
| outflows and inflows of resources  | <br>18,138     |
| Change in Net Position of Governmental Activities  | \$<br>(60,709) |

# Notes to Basic Financial Statements June 30, 2018

#### 1. Summary of Significant Accounting Policies

#### **Reporting Entity**

The City of Sand Point was incorporated in 1966 and has operated as a first-class city since 1978 under a council/mayor form of government. The City provides a full range of services to its citizens including, but not limited to, public safety, streets, health and social services, water and sewer, refuse collection, boat harbor, and general administration.

The basic principle used in determining the scope of the entity for financial reporting purposes is the exercise of oversight responsibility over other governmental units by the City's elected officials. Oversight responsibility is derived from the governmental unit's power and includes, but is not limited to, financial interdependency, selection of governing authority, designation of management, ability to significantly influence operations, and accountability for fiscal matters. No other entities exist for which the City has oversight responsibility.

The accounting policies of City of Sand Point conform to accounting principles generally accepted in the United States of America as applicable to governments. The following is a summary of the more significant policies:

#### Government-Wide and Fund Financial Statements

Government-wide financial statements include the statement of net position and statement of activities. These statements report financial information for the City as a whole. Individual funds are not displayed, but statements distinguish governmental activities from business-type activities which are generally financed in whole or in part with fees charged to external customers. The statement of activities reports expenses of a given function offset by program revenues directly connected with the functional program. A function is an assembly of similar activities and may include portions of a fund or summarize more than one fund to capture expenses and program revenues associated with a distinct functional activity. Program revenues include: (1) charges for services and other charges to users of the City's services; (2) operating grants and contributions which finance annual operating activities; and (3) capital grants and contributions which fund acquisition, construction, or rehabilitation of capital assets and include fees to developers. These revenues are subject to externally imposed restrictions to these program uses. Taxes and other revenue sources not properly included with program revenues are reported as general revenues.

Separate financial statements are provided for governmental and proprietary funds. Major individual governmental and proprietary funds are reported in separate columns with composite columns for nonmajor funds.

#### Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide and proprietary fund financial statements report using the economic resources measurement focus and accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred regardless of the timing of the related cash flows. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.

#### Notes to Basic Financial Statements

Governmental fund financial statements report using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when they are both measurable and available. Available means collectible within the current period or soon enough thereafter to pay current liabilities. The City considers revenues to be available if they are collected within 60 days of the end of the fiscal year. Expenditures are recorded when the related fund liability is incurred. However, debt service expenditures, as well as expenditures related to compensated absences, are recorded only to the extent they have matured.

Major revenue sources susceptible to accrual include charges for services, intergovernmental revenues and investment income. In general, other revenues are recognized when received.

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as *general revenues* rather than as program revenues. In addition, general revenues include all taxes, investment income, and State and federal entitlement revenues.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Enterprise Funds are charges to customers for sales and services. Operating expenses for the Enterprise Funds include the costs of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

#### **Major Funds**

The City reports the following major governmental fund:

General Fund - Reports as the primary fund of the City. This fund is used to account for all financial resources not reported in other funds.

The City reports the following major proprietary funds:

Bingo Enterprise Fund - to account for gaming activities.

Boat Harbor Enterprise Fund - to account for activities of the boat harbor.

Water and Sewer Enterprise Fund - to account for water and sewer utilities.

*Refuse Enterprise Fund* - to account for activities of the refuse services. Although this fund did not meet the quantitative requirements of a major fund, management has decided to present as a major fund to maintain year-to-year consistence in financial reporting.

#### Cash and Cash Equivalents

For purposes of the statements of cash flows, the City considers all cash and investments to be cash equivalents. The central treasury, which holds cash and investments, is used essentially as a cash management pool by each fund.

#### **Prepaid Items**

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

#### Notes to Basic Financial Statements

#### Receivables and Payables

On the fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "due to/from other funds." Long-term loans between funds are classified as "advances to/from other funds." These amounts are eliminated in the governmental and business-type activities columns of the statement of net position, except for any net residual amounts due between governmental and business-type activities, which are reclassified and presented as internal balances.

At the governmental fund financial reporting level, an "advance receivable" is offset by nonspendable fund balance in the General Fund to indicate that it is not available for general appropriation.

#### Capital Assets

The City's property, plant, equipment, and infrastructure with useful lives of more than one year are stated at historical cost and comprehensively reported in the government-wide financial statements. Donated assets are stated at acquisition value. Acquisition value is the price that would be paid to acquire an asset with equivalent service potential in an ordinary market transaction at the acquisition date. The City generally capitalizes assets with a cost of \$5,000 or more as purchase and construction outlays occur. Costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. Capital assets are depreciated using the straight-line method. When capital assets are disposed of, the cost and applicable accumulated depreciation are removed from the respective accounts, and the resulting gain or loss is recorded.

Estimated useful lives in years for depreciable assets are as follows:

|                                   | Years        |
|-----------------------------------|--------------|
| Buildings and improvements        | 20-40        |
| Machinery Equipment and vehicles  | 5-10<br>5-10 |
| Improvements other than buildings | 10-20        |
| Landfill                          | 32           |

#### **Compensated Absences**

It is the City's policy to allow employees to accumulate earned but unused annual leave. Compensated absences are reported as accrued in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

#### **Unearned Revenue**

Amounts for which asset recognition criteria have been met but for which revenue recognition criteria have not been met are recorded as unearned revenue.

#### Notes to Basic Financial Statements

#### Long-term Debt

In government-wide and proprietary fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net position. Governmental fund financial statements recognize proceeds of debt and premiums as other financing sources of the current period.

#### Pension Plan and Other Postemployment Benefits (OPEB) Plan

For purposes of measuring the net pension and OPEB liability, deferred outflows of resources and deferred inflows of resources related to pensions and OPEB, and pension and OPEB expense, information about the fiduciary net position of the Public Employees' Retirement System (PERS) and additions to/from PERS's fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

#### **Fund Balances**

In the fund financial statements, governmental funds report aggregate amounts for five classifications of fund balances based on the constraints imposed on the use of these resources:

Nonspendable fund balance - This classification includes amounts that cannot be spent because they are either (a) not in spendable form—prepaid items or inventories; or (b) legally or contractually required to be maintained intact.

Restricted fund balance - This classification reflects the constraints imposed on resources either (a) externally by creditors, grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.

Committed fund balance - These amounts can only be used for specific purposes pursuant to constraints imposed by formal resolutions or ordinances of the City Council—the government's highest level of decision making authority. Those committed amounts cannot be used for any other purpose unless the City Council removes the specified use by taking the same type of action imposing the commitment. This classification also includes contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned fund balance - This classification reflects the amounts constrained by the City's "intent" to be used for specific purposes, but are neither restricted nor committed. The City Council has the authority to assign amounts to be used for specific purposes. Assigned fund balances include all remaining amounts (except negative balances) that are reported in governmental funds, other than the General Fund, that are not classified as nonspendable and are neither restricted nor committed.

*Unassigned fund balance* - This fund balance is the residual classification for the General Fund. It is also used to report negative fund balances in other governmental funds.

When both restricted and unrestricted resources are available for use, it is the City's policy to use externally restricted resources first, then unrestricted resources-committed, assigned, and unassigned-in order as needed.

#### Notes to Basic Financial Statements

### Use of Estimates

Preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make certain estimates and assumptions that affect amounts reported in these financial statements. Accordingly, actual results could differ from those estimates.

#### **Budgetary Accounting**

The annual City operating budget is prepared by management in the spring preceding the fiscal year to which it relates. The budget is submitted to the City Council for review and approval. Legal enactment of the budget is obtained through passage of a City ordinance. Amendments to the budget can occur any time during the fiscal year through City Council action.

The budget is enacted at the department level, the City does not budget for on-behalf payments made by the State of Alaska towards the Alaska Public Employees' Retirement System. Otherwise, the budget for the General Fund is adopted on a basis consistent with accounting principles generally accepted in the United States of America.

#### **Grants and Other Intergovernmental Revenues**

In applying the measurable and available concept to grants and intergovernmental revenues, legal and contractual requirements of the numerous individual programs are used as guidance. There are, however, essentially two types of these revenues. In one, monies must be expended on the specific purpose or project before any amounts are considered "earned"; therefore, revenues are recognized based on expenditures recorded. In the other, monies are virtually unrestricted as to purpose of expenditure and are usually revocable only for failure to comply with prescribed compliance requirements. These resources are reflected as revenues at the time of receipt or earlier if the measurable and available criteria are met.

#### 2. Cash and Investments

#### Reconciliation of Deposit and Investment Balances

The following is a reconciliation of the City's deposit and investment balances to the financial statements as of June 30, 2018.

|                                   | Totals       |
|-----------------------------------|--------------|
| Deposit accounts and cash on hand | \$ 473,172   |
| Charles Schwab investment         | 514,416      |
| Pooled investment                 | 2,314,308    |
| Total Cash and Investments        | \$ 3,301,896 |

#### Notes to Basic Financial Statements

Custodial Credit Risk - Custodial credit risk is the risk that in the event of a bank failure, the City's deposits may not be returned to it. The City does not have a policy for custodial credit risk. At June 30, 2018, \$250,000 of the City's Wells Fargo bank deposits were insured by the Federal Deposit Insurance Corporation and \$500,000 of the City's investments in Charles Schwab were insured by the Securities Investor Protection Corporation. The remaining balance of deposits were uninsured and uncollateralized. The Pooled Investment (AMLIP, see below) is not subject to custodial credit risk.

#### Investments

Municipal code allows the City to invest in the following items:

- a) Cash reserves of other public entities
- b) Alaska Municipal League Investment Pool

Pooled investments are invested with the Alaska Municipal League Investment Pool, Inc. (AMLIP). The AMLIP is an external investment pool which is rated AAAm for credit risk purposes. Alaska Statute 37.23 establishes regulatory oversight of the pool. The law sets forth numerous requirements regarding authorized investments and reporting. The City's investment in AMLIP of \$2,314,308 is measured at net asset value, as of June 30, 2018. Management believes these values approximate fair value.

The fair values of the City's equity securities at year-end are \$514,416.

#### Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates.

#### Fair Value Measurement

The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. Equity securities are all considered to be Level 1.

#### Southwest Governments, LLC

The City holds a 20% interest in Southwest Governments, LLC, a company that owns and rents an office building in Anchorage, Alaska. At June 30, 2018, the City's investment in the LLC was \$294,911. This investment is considered noncurrent, and accordingly, an equal amount of fund balance of the General Fund is shown as nonspendable. In 2018, the City's share of earnings of Southwest Governments, LLC was \$23,026, which is included in other revenue.

The City's investment in Southwest Governments, LLC is accounted for under the equity method. Under the equity method, original investments are recorded at cost and adjusted by the City's share of undistributed earnings or losses. The City would recognize an impairment loss when there is a loss in value in the equity method investment which is other than a temporary decline.

#### **Notes to Basic Financial Statements**

## 3. Receivables and Allowance for Uncollectible Accounts

The City maintains accounts receivable balances of which a portion is reserved as an allowance for doubtful accounts. At June 30, 2018, receivables for the City's individual major funds and nonmajor funds in the aggregate, including applicable allowances for uncollectible accounts, are as follows:

|   | General<br>Fund                              | Boat Harbor<br>Enterprise<br>Fund | Water and<br>Sewer<br>Enterprise<br>Fund | Refuse<br>Enterprise<br>Fund | Totals                               |
|---|--|-----------------------------------|--|------------------------------|--------------------------------------|
| Accounts Sales and fish taxes Grants Other                        | \$<br>18,987 \$<br>138,794<br>7,704<br>5,994 | 135,174 \$<br>-<br>-<br>-         | 17,022 \$<br>-<br>-<br>-                 | 5 17,085 \$<br>-<br>-<br>-   | 188,268<br>138,794<br>7,704<br>5,994 |
| Total receivables<br>Less allowance for<br>uncollectible accounts | 171,479<br>-                                 | 135,174<br>(70,968)               | 17,022<br>(6,791)                        | 17,085<br>(3,837)            | 340,760<br>(81,596)                  |
| Net Receivables   | \$<br>171,479 \$                             | 64,206 \$                         | 10,231                                   | 3 13,248 \$                  | 259,164                              |

#### **Notes to Basic Financial Statements**

## 5. Long-term Debt

#### **General Obligation Bonds**

The City of Sand Point issued general obligation bonds for the expansion of the Small Boat Harbor. The general obligation bonds pledge the full faith and credit of the City. Bonds in the amount of \$2,615,000 were issued on March 12, 2013.

All of the bonds outstanding are held by the Alaska Municipal Bond Bank Authority. This State of Alaska agency purchases bonds from municipalities within the State, while simultaneously selling its own bonds to third parties in order to fund the bond purchases.

Bonds currently outstanding are as follows:

| Business-type Activities   | Interest<br>Rates | <br>Outstanding<br>Balance |
|--|-------------------|----------------------------|
| Small boat harbor -<br>\$2,615,000, 2013 Series One general obligation bonds, due in |                   |                            |
| annual principal payments of \$70,000 to \$175,000 through 2038                      | 2%-5%             | \$<br>2,300,000            |

Debt service requirements to maturity for the general obligation bonds are as follows:

#### **Business-type Activities**

| Fiscal Year | Principal       |      | Interest |  |
|-------------|-----------------|------|----------|--|
|             |                 |      |          |  |

| Total Transfers to Other Funds                                  | \$ | 178,037   |

#### 8. Retirement Plans

#### (a) Defined Benefit (DB) Pension Plan

#### General Information About the Plan

The City participates in the Alaska Public Employees' Retirement System (PERS). PERS is a cost-sharing multiple employer plan which covers eligible State and local government employees, other than teachers. The Plan was established and is administered by the State of Alaska Department of Administration. Benefit and contribution provisions are established by State law and may be amended only by the State Legislature.

The Plan is included in a comprehensive annual financial report that includes financial statements and other required supplemental information. That report is available via the internet at http://doa.alaska.gov/drb/pers. Actuarial valuation reports, audited financial statements, and other detailed plan information are also available on this website.

The Plan provides for retirement, death and disability, and postemployment healthcare benefits. There are three tiers of employees, based on entry date. For all tiers within the Defined Benefit (DB) plan, full retirement benefits are generally calculated using a formula comprised of a multiplier times the average monthly salary (AMS) times the number of years of service. The multiplier is increased at longevity milestone markers for most employees. Police/Fire employees accrue

#### Notes to Basic Financial Statements

benefits at an accelerated rate. The tiers within the Plan establish differing criteria regarding normal retirement age, early retirement age, and the criteria for calculation of AMS, COLA adjustments, and other OPEB benefits. A complete benefit comparison chart is available at the website noted above.

The PERS DB Plan was closed to new entrants effective June 30, 2006. New employees hired after that date participate in the PERS Defined Contribution (DC) Plan described later in these notes.

#### Historical Context and Special Funding Situation

In April 2008, the Alaska Legislature passed legislation converting the previously existing PERS plan from an agent-multiple employer plan to a cost-sharing plan with an effective date of July 1, 2008. In connection with this conversion, the State of Alaska passed additional legislation which statutorily capped the employer contribution rate, established a state funded "on-behalf" contribution (subject to funding availability), and required that employer contributions be calculated against all PERS eligible wages, including wages paid to participants of the PERS Tier IV defined contribution plan described later in these notes.

Alaska Statute 39.35.255 requires the State of Alaska to contribute to the Plan an amount such that, when combined with the employer contribution, is sufficient to pay the Plan's past service liability contribution rate as adopted by the Alaska Retirement Management Board. As such, the Plan is considered to be in a special funding situation as defined by GASB, and management has recorded all pension related liabilities, deferred inflows/outflows of resources, and disclosures on this basis.

The City recorded the related on-behalf contributions as revenue and expense or expenditures as prescribed by GAAP, pursuant to the relevant basis of accounting based on fund type.

It is important to note that the Alaska Legislature has the power and authority to change the aforementioned statute through the legislative process.

#### **Employee Contribution Rates**

Regular employees are required to contribute 6.75% of their annual covered salary. Police and firefighters are required to contribute 7.50% of their annual covered salary.

#### Employer and Other Contribution Rates

There are several contribution rates associated with the pension and healthcare contributions and related liabilities. These amounts are calculated on an annual basis.

Employer Effective Rate: This is the contractual employer pay-in rate. Under current legislation, this rate is statutorily capped at 22% of eligible wages, subject to a wage floor, and other termination events. This 22% rate is calculated on all PERS participating wages, including those wages attributable to employees in the defined contribution plan. Contributions derived from the defined contribution employees are referred to as the Defined Benefit Unfunded Liability or DBUL contribution.

ARM Board Adopted Rate: This is the rate formally adopted by the Alaska Retirement Management Board. This rate is actuarially determined and used to calculate annual Plan funding requirements, without regard to the statutory rate cap or the GASB accounting rate. Effective July 1, 2015, the Legislature requires the ARM Board to adopt employer contribution rates for past service liabilities

#### **Notes to Basic Financial Statements**

using a level percent of pay method over a closed 25-year term which ends in 2039. This change results in lower ARM Board Rates than previously adopted.

On-behalf Contribution Rate: This is the rate paid in by the State as an on-behalf payment under the current statute. The statute requires the State to contribute, based on funding availability, an on-behalf amount equal to the difference between the ARM Board Rate and the Employer Effective Rate. In the governmental fund financial statements, on-behalf contribution amounts have been recognized as additional revenues and expenditures. In the enterprise fund and government-wide financial statements, the on-behalf amounts reflect revenue and expense only during the measurement period in which the Plan recognizes the payments, resulting in a significant timing difference between the cash transfers and revenue and expense recognition.

GASB Rate: This is the rate used to determine the long-term pension and healthcare liability for plan accounting purposes in accordance with generally accepted accounting principles as established by GASB. Certain actuarial methods and assumptions for this rate calculation are mandated by GASB. Additionally, the GASB Rate disregards all future Medicare Part D payments. For FY18, the rate uses an 8% pension discount rate and a 4.30% healthcare discount rate.

The GASB Rate and the ARM Board Adopted Rate differ significantly as a direct result of variances in the actuarial methods and assumptions used.

Contribution rates for the year ended June 30, 2018 were determined in the June 30, 2015 actuarial valuation.

|                               | Employer<br>Effective<br>Rate | ARM Board<br>Adopted<br>Rate | State<br>Contribution<br>Rate | GASB<br>Rate |
|-------------------------------|-------------------------------|------------------------------|-------------------------------|--------------|
| Pension                       | 17.12%                        | 21.90%                       | 3.01%                         | 29.07%       |
| Other postemployment benefits | 4.88%                         | 3.11%                        | 0.00%                         | 66.85%       |
| Total Contribution Rates      | 22.00%                        | 25.01%                       | 3.01%                         | 95.92%       |

In 2018, the City was credited with the following contributions to the pension plan.

|  | <br>asurement<br>City FY17 | City FY18              |
|--|----------------------------|------------------------|
| Employer contributions (including DBUL)<br>Nonemployer contributions (on-behalf) | \$<br>57,019<br>57,826     | \$<br>61,776<br>73,396 |
| Total Contributions  | \$<br>114,845              | \$<br>135,172          |

In addition, employee contributions to the Plan totaled \$24,218 during the City's fiscal year.

#### **Notes to Basic Financial Statements**

# Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions.

At June 30, 2018, the City reported a liability for its proportionate share of the net pension liability (NPL) that reflected a reduction for State pension support provided to the City. The amount recognized by the City for its proportional share, the related State proportion, and the total were as follows:

|   | 2018            |
|---|-----------------|
| City proportionate share of NPL                             | \$<br>1,834,527 |
| State's proportionate share of NPL associated with the City | 682,570         |
| Total Net Pension Liability                                 | \$<br>2,517,097 |

The total pension liability for the June 30, 2017 measurement date was determined by an actuarial valuation as of June 30, 2016 rolled forward to June 30, 2017 to calculate the net pension liability as of that date. The City's proportion of the net pension liability was based on a projection of the City's long-term share of contributions to the pension plan relative to the projected contributions of all participating entities, including the State, actuarially determined. At the June 30, 2017 measurement date, the City's proportion was 0.03549 percent, which was a decrease of -0.00941 percent from its proportion measured as of June 30, 2016.

For the year ended June 30, 2018, the City recognized pension expense of \$(42,898) and on-behalf revenue of \$54,177 for support provided by the State. At June 30, 2018, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

|   | of | Deferred<br>Outflows<br>Resources | Deferred<br>Inflows<br>of Resources |           |
|---|----|-----------------------------------|-------------------------------------|-----------|
| Difference between expected and actual experience Changes in assumptions  | \$ | -                                 | \$                                  | (32,983)  |
| Net difference between projected and actual earnings<br>on pension plan investments<br>Changes in proportion and differences between City |    | 49,208                            |                                     | -         |
| contributions and proportionate share of contributions City contributions subsequent to the measurement date                              |    | 5,246<br>135,172                  |                                     | (232,922) |
| Total Deferred Outflows and Deferred Inflows of Resources<br>Related to Pensions  | \$ | 189,626                           | \$                                  | (265,905) |

#### **Notes to Basic Financial Statements**

The \$135,172 reported as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction in the net pension liability in the year ended June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

| 2019 | \$<br>(257,228) |
|------|-----------------|
| 2020 | 51,241          |
| 2021 | 23,003          |
| 2022 | (28,467)        |

#### **Actuarial Assumptions**

The total pension liability for the measurement period ended June 30, 2017 was determined by an actuarial valuation as of June 30, 2016, using the following actuarial assumptions, applied to all periods included in the measurement, and rolled forward to the measurement date of June 30, 2017. The actuarial assumptions used in the June 30, 2016 actuarial valuation (latest available) were based on the results of an actuarial experience study for the period from July 1, 2009 to June 30, 2013, resulting in changes in actuarial assumptions adopted by the Alaska Retirement Management Board to better reflect expected future experience.

| Actuarial cost method                | Entry age normal; level dollar normal cost basis  |  |  |  |  |
|--------------------------------------|---|--|--|--|--|
| Amortization method                  | Level dollar, closed  |  |  |  |  |
| Inflation                            | 3.12%   |  |  |  |  |
| Salary increases                     | Graded by service, from 9.66% to 4.92% for peace officer/firefighter Graded by age and service, from 8.55% to 4.34% for all others  |  |  |  |  |
| Allocation Methodology               | Amounts for FY17 were allocated to employers based on the projected present value of contributions for FY2019-FY2039. The liability is expected to go to zero at 2039.  |  |  |  |  |
| Investment Return / Discount<br>Rate | 8.00%, net of pension plan investment expenses. This is based on an average inflation rate of 3.12% and a real rate of return of 4.88%.   |  |  |  |  |
| Mortality                            | Pre-termination - Based on the 2010-2013 actual mortality experience, 60% of male and 65% of female post-termination rates. Deaths are assumed to be occupational 70% of the time for peace officers/firefighters, 50% of the time for others. Post-termination - 96% of all rates of the RP-2000 table, 2000 base year projected to 2018 with projection scale BB. |  |  |  |  |

#### **Notes to Basic Financial Statements**

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class are summarized in the following table (note that the rates shown below exclude the inflation component):

| Asset Class             | Target Allocation | Long-Term Expected Real Rate of Return |  |  |  |
|-------------------------|-------------------|--|--|--|--|
| <b>5</b> 11             | 2404              |  |  |  |  |
| Broad domestic equity   | 26%               | 8.83%                                  |  |  |  |
| Global ex-U.S. equity   | 22%               | 7.79%                                  |  |  |  |
| Intermediate Treasuries | 13%               | 1.29%                                  |  |  |  |
| Opportunistic           | 5%                | 4.76%                                  |  |  |  |
| Real assets             | <b>17</b> %       | 4.94%                                  |  |  |  |
| Absolute return         | <b>7</b> %        | 4.76%                                  |  |  |  |
| Private equity          | 9%                | 12.02%                                 |  |  |  |
| Cash equivalents        | 1%                | 0.63%                                  |  |  |  |

#### Discount Rate

The discount rate used to measure the total pension liability was 8.00%. The projection of cash flows used to determine the discount rate assumed that employer and State contributions will continue to follow the current funding policy, which meets State statutes. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

#### **Discount Rate Sensitivity**

The following presents the City's proportionate share of the net pension liability calculated using the discount rate of 8.00 percent, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (7.00 percent) or 1-percentage-point higher (9.00 percent) than the current rate:

|   | Proportional<br>Share | 1% Decrease<br>(9.00%) |           |    | Current<br>Discount Rate<br>(8.00%) |    | 1% Increase<br>(9.00%) |  |
|---|-----------------------|------------------------|-----------|----|-------------------------------------|----|------------------------|--|
| City's proportionate share of the net pension liability | 0.03549 %             | \$                     | 2,409,821 | \$ | 1,834,527                           | \$ | 1,348,714              |  |

#### Notes to Basic Financial Statements

#### Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued PERS financial report.

#### (b) Defined Contribution (DC) Pension Plan

Employees hired after July 1, 2006 participate in PERS Tier IV, a defined contribution plan. This Plan is administered by the State of Alaska, Department of Administration in conjunction with the defined benefit plan noted above. Benefit and contribution provisions are established by State law and may be amended only by the State Legislature. The Alaska Retirement Management Board may also amend contribution requirements. Included in the Plan are individual pension accounts, retiree medical insurance plan and a separate Health Reimbursement Arrangement account that will help retired members pay medical premiums and other eligible medical expenses not covered by the medical plan. This Plan is included in the comprehensive annual financial report for PERS, and at the following website, as noted above. http://doa.alaska.gov/drb/pers.

Contributions to the DC plan consist solely of employer and employee contributions with no special funding or other nonemployer contributions. In addition, actual remittances to the PERS system require that the City contribute at 22%. After deducting the DC plan contributions (and related OPEB contributions), the remaining remittance (the DBUL) is deposited into the DB plan as noted earlier.

#### Benefit Terms

Employees are immediately vested in their own contributions and vest 25% with two years of service, plus an additional 25% per year thereafter for full vesting at five years of service.

### **Employee Contribution Rate**

Employees are required to contribute 8% of their annual covered salary. This amount goes directly to the individual's account.

#### **Employer Contribution Rate**

For the year ended June 30, 2018, the City was required to contribute 5% of covered salary into the Plan.

The City and employee contributions to PERS for pensions for the year ended June 30, 2018 were \$40,377 and \$64,604, respectively. The City contribution amount was recognized as pension expense/expenditures.

#### (c) Defined Benefit and Other Postemployment Benefit (OPEB) Plan

As part of its participation in the PERS DB Plan (Tiers I, II, III), which is a cost-sharing multiple employer plan, the City participates in the Alaska Retiree Healthcare Trust (ARHCT), Retiree Medical Plan (RMP) and Occupational Death and Disability Plan (ODD). The ARHCT is self-funded and provides major medical coverage to retirees of the DB Plan. Benefits vary by Tier level. The RMP provides major medical coverage to retirees of the PERS DC Plan (Tier IV). The ODD provides death benefits for beneficiaries of plan participants and long-term disability benefits to all active members within PERS. The Plans are administered by the State of Alaska, Department of Administration.

#### **Notes to Basic Financial Statements**

## **Employer Contribution Rate**

The City is required to contribute 4.88% of covered payroll into the OPEB plan. Employees do not contribute.

In 2018, the City was credited with the following contributions to the OPEB plan.

|   | Measurement<br>Period City FY17 | City FY18      |  |  |
|---|---------------------------------|----------------|--|--|
| Employer contributions<br>Nonemployer contributions (on-behalf) | \$ 63,863                       | \$ 47,828<br>- |  |  |
| Total Contributions   | \$ 63,863                       | \$ 47,828      |  |  |

# OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources

At June 30, 2018, the City reported a liability for its proportionate share of the net OPEB liabilities (NOL) that reflected a reduction for State OPEB support provided to the City. The amount recognized by the City for its proportional share, the related State proportion, and the total were as follows:

|  | 2018       |
|--|------------|
| City's proportionate share of NOL - ARHCT              | \$ 299,802 |
| City's proportionate share of NOL - RMP                | 3,734      |
| City's proportionate share of NOL - ODD                | (10,161)   |
| State's proportionate share of the NOL associated with |            |
| the City   | 111,911    |
| Total Net OPEB Liabilities                             | \$ 405,286 |

The total OPEB liabilities for the June 30, 2017 measurement date was determined by an actuarial valuation as of June 30, 2016 rolled forward to June 30, 2017 to calculate the net OPEB liabilities as of that date. The City's proportion of the net OPEB liabilities were based on a projection of the City's long-term share of contributions to the OPEB plans relative to the projected contributions of all participating entities, actuarially determined.

|                                   | June 30, 2016<br>Measurement<br>Date Employer<br>Proportion |          | Change     |
|-----------------------------------|---|----------|------------|
| City's proportionate share of the |   |          |            |
| net OPEB liability:               |   |          |            |
| ARHCT                             | 0.04493%  | 0.03549% | (0.00944)% |
| RMP                               | 0.07947%  | 0.07161% | (0.00786)% |
| ODD                               | 0.07947%  | 0.07161% | (0.00786)% |

#### **Notes to Basic Financial Statements**

As a result of its requirement to contribute to the Plan, the City recognized OPEB expense of \$21,428 and on-behalf revenue of \$17,584 for support provided by the State. At June 30, 2018, the City reported deferred outflows of resources and deferred inflows of resources from the following sources:

|  |    | Deferred   |    | Deferred   |
|--|----|------------|----|------------|
|  | 0  | utflows of |    | Inflows of |
|  |    | Resources  |    | Resources  |
|  |    | Related to |    | Related to |
|  | 0  | PEB Plans  |    | OPEB Plans |
| Difference between expected and actual experience                            | \$ | -          | \$ | (16,497)   |
| Changes in assumptions   | ·  | -          | ·  | -          |
| Changes in benefits  |    | -          |    | -          |
| Net difference between projected and actual earnings                         |    |            |    |            |
| on OPEB plan investments   |    | -          |    | (96,334)   |
| Changes in proportion and differences between City                           |    |            |    | , , ,      |
| contributions and proportionate share of contributions                       |    | 1,044      |    | (63,924)   |
| City contributions subsequent to the measurement date                        |    | 47,828     |    | <u> </u>   |
| Total Deferred Outflows and Deferred Inflows of Decourage                    |    |            |    |            |
| Total Deferred Outflows and Deferred Inflows of Resources<br>Related to OPEB | \$ | 48,872     | \$ | (176,755)  |

The \$47,828 reported as deferred outflows of resources related to OPEB resulting from contributions subsequent to the measurement date will be recognized as a reduction in the net OPEB liability in the year ended June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

| Year Ending June 30 |
|---------------------|
|---------------------|

| 2019       | \$<br>(68,212) |
|------------|----------------|
| 2020       | (59,385)       |
| 2021       | (24,075)       |
| 2022       | (24,075)       |
| 2023       | 9              |
| Thereafter | 27             |

#### **Actuarial Assumptions**

The total OPEB liability for the measurement period ended June 30, 2017 (City fiscal year 2018) was determined by an actuarial valuation as of June 30, 2016, using the following actuarial assumptions, applied to all periods included in the measurement, and rolled forward to the measurement date of June 30, 2017. The actuarial assumptions used in the June 30, 2016 actuarial valuation (latest available) were based on the results of an actuarial experience study for the period from July 1, 2009 to June 30, 2013, resulting in changes in actuarial assumptions adopted by the Alaska Retirement Management Board to better reflect expected future experience.

### **Notes to Basic Financial Statements**

| Actuarial cost method                | Entry age normal; level dollar normal cost basis   |
|--------------------------------------|--|
| Amortization method                  | Level dollar, closed   |
| Inflation                            | 3.12%  |
| Salary increases                     | Graded by service from 9.66% to 4.92% for peace officer/firefighter. Graded by service from 8.55% to 4.34% for all others.   |
| Allocation Methodology               | Amounts for FY17 were allocated to employers based on the projected present value of contributions for FY2019 - FY2039. The liability is expected to go to zero at 2039.   |
| Investment Return / Discount<br>Rate | 8.00%, net of postemployment healthcare plan investment expenses. This is based on an average inflation rate of 3.12% and a real rate of return of 4.88%.  |
| Healthcare cost trend rates          | Pre-65 medical; 8.8% grading down to 4.4% Post-65 medical; 5.8% grading down to 4.0% Prescription drug; 5.4% grading down to 4.0%=   |
| Mortality                            | Pre-termination - Based on the 2010-2013 actual mortality experience, 60% of male and 65% of female post-termination rates. Deaths are assumed to be occupational 70% of the time for peace officers/firefighters, 50% of the time for all others.  Post-termination - 96% of all rates of the RP-2000 table, 2000 base year projected to 2018 with projection scale BB. |

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of postretirement healthcare plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The best estimates of arithmetic real rates of return for each major asset class are summarized in the following table (note that the rates shown below exclude the inflation component):

| Asset Class             | Target Allocation | Long-Term Expected Real Rate of Return |  |  |  |
|-------------------------|-------------------|--|--|--|--|
| Broad domestic equity   | 26%               | 8.83%                                  |  |  |  |
| Global ex-U.S. equity   | 22%               | 7.79%                                  |  |  |  |
| Intermediate Treasuries | 13%               | 1.29%                                  |  |  |  |
| Opportunistic           | 5%                | 4.76%                                  |  |  |  |
| Real assets             | 17%               | 4.94%                                  |  |  |  |
| Absolute return         | <b>7</b> %        | 4.76%                                  |  |  |  |
| Private equity          | <b>9</b> %        | 12.02%                                 |  |  |  |
| Cash equivalents        | 1%                | 0.63%                                  |  |  |  |

#### **Notes to Basic Financial Statements**

#### Discount rate

The discount rate used to measure the total OPEB liability was 8.00%. The projection of cash flows used to determine the discount rate assumed that employer and State contributions will continue to follow the current funding policy which meets State statutes. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

#### **Discount Rate Sensitivity**

The following presents the City's proportionate share of the net OPEB liability calculated using the discount rate of 8.00%, as well as what the City's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (7.00%) or 1-percentage-point higher (9.00%) than the current rate:

|   | Proportional<br>Share                     | 1%<br>Decrease<br>(7.00%)    | Di             | Current<br>scount Rate<br>(8.00%) |                | 1% Increase<br>(9.00%)        |
|---|---|------------------------------|----------------|-----------------------------------|----------------|-------------------------------|
| City's proportionate share of<br>the net OPEB liability:<br>ARHCT<br>RMP<br>ODD | 0.03549% \$<br>0.07161% \$<br>0.07161% \$ | 641,608<br>17,495<br>(9,172) | \$<br>\$<br>\$ | 299,802<br>3,734<br>(10,161)      | \$<br>\$<br>\$ | 12,296<br>(7,011)<br>(10,968) |

## Healthcare Cost Trend Rates Sensitivity

The following presents the City's proportionate share of the net OPEB liability calculated using the healthcare cost trend rate, as well as what the City's proportionate share of the net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage point lower or 1-percentage-point higher than the current healthcare cost trend rates:

|   | Proportional<br>Share                     | 1%<br>Decrease           | Di             | Current<br>scount Rate       |                | 1% Increase       |
|---|---|--------------------------|----------------|------------------------------|----------------|-------------------|

#### **OPEB Plan Fiduciary Net Position**

Detailed information about the OPEB plan's fiduciary net position is available in the separately issued PERS financial report.

#### **Notes to Basic Financial Statements**

#### (d) Defined Contribution OPEB Plans

Defined Contribution Pension Plan participants (PERS Tier IV) participate in the Occupational Death and Disability Plan (ODD), and the Retiree Medical Plan. Information on these plans is included in the comprehensive annual financial report for the PERS Plan noted above. These plans provide for death, disability, and postemployment healthcare benefits.

### **Employer Contribution Rates**

Employees do not contribute to the DC OPEB plans. Employer contribution rates for the year ended June 30, 2018 were as follows:

|  | Other<br>Tier IV | Police/Fire<br>Tier IV |
|--|------------------|------------------------|
| Retiree medical plan                       | 1.03%            | 1.03%                  |
| Occupational death and disability benefits | 0.16%            | 0.43%                  |
| Total Contribution Rates                   | 1.19%            | 1.46%                  |

In addition, PERS defined contribution members also participate in the Health Reimbursement Arrangement. AS 39.30.370 establishes this contribution amount as "three percent of the average annual employee compensation of *all employees of all employers* in the plan". As of July 1, 2017, for actual remittance, this amount is calculated as a flat rate for each full-time or part-time employee per pay period and approximates \$2,084 per year for each full-time employee, and \$1.34 per hour for part-time employees.

#### Annual Postemployment Healthcare Cost

In 2018, the City contributed \$32,946 in DC OPEB costs. These amounts have been recognized as expense/expenditures.

## 9. Landfill Closure and Postclosure Liability

The City operates a local landfill. State and federal laws and regulations require the City to place a final cover on its landfill site when it stops accepting waste and to perform certain maintenance and monitoring functions at the site for 30 years after closure. Although closure and postclosure care costs will be paid only near or after the date the landfill stops accepting waste, generally accepted accounting principles require that the City report a portion of these closure and postclosure care costs each period based on landfill capacity used as of each balance sheet date.

The City has estimated the closure and postclosure costs to be \$219,800 with an estimated remaining life through 2036. At June 30, 2018, the City has recognized \$140,649 of this liability on the statement of net position, an increase of \$4,398 from the prior year. The City will recognize the remaining estimated cost of closure and postclosure care of \$79,151 as the remaining expected usage is filled. These amounts are based on what it would cost to perform all closure and postclosure care in 2018. Actual costs may be higher due to inflation, changes in technology or changes in regulations. The remaining life of the landfill is estimated to be approximately 18 years.

At June 30, 2018 the City has not committed or assigned any fund balance to fund the cost of closure and postclosure monitoring, nor have any assets been restricted for this purpose.

#### **Notes to Basic Financial Statements**

### 10. Risk Management

The City faces a considerable number of risks of loss, including (a) damage to and loss of property and contents, (b) employee torts, (c) professional liability; i.e., errors and omissions, (d) environmental damage, (e) workers' compensation; i.e., employee injuries, and (f) medical insurance costs of employees.

The City is a member of Alaska Public Entity Insurance (APEI), a governmental insurance pool. APEI provides the City coverage for property, including building and contents, automobiles, mobile equipment, data processing equipment and boiler and machinery; casualty, including general liability, public officials and employees liability, law enforcement professional liability, auto liability and employee benefit liability; workers' compensation, including employers liability; and commercial blanket bond. The City maintains supplemental marine insurance and firefighter's group accident coverage with insurance companies placed through APEI. The City has no coverage for potential losses from environmental damages.

APEI is a public entity risk pool organized to share risks among its members. Its bylaws provide for the assessment of supplemental contributions from members in the event that losses and expenses for any coverage year exceed the annual contributions and income earned on such contributions for the year. Such supplemental contributions shall be based upon each member's deposit contribution in comparison to the aggregate deposit contributions of all members. There were no supplemental assessments made during the year ended June 30, 2018.

## 11. Change in Accounting Principle

As discussed in Note 8 to the financial statements, the City participates in the Alaska Public Employees' Retirement System (PERS) plan. In 2018 the City adopted the provisions of GASB Statement No. 75 Accounting and Financial Reporting for Postemployment Benefits Other than Pensions, which, among other accounting and reporting criteria, requires the City to recognize its proportional share of the Net Other Postemployment Benefits Liability (and related deferred inflow/outflow accounts), as of the beginning of the City's fiscal year. As a result of the implementation of this statement, the City has recorded an opening balance adjustment to reflect opening balance OPEB liabilities and related accounts and to decrease opening net position as follows:

|                                   | Opening Net<br>Position, as<br>Originally<br>Presented | Change in<br>Accounting<br>Principle<br>Adjustment | Opening Net<br>Position, as<br>Restated |
|-----------------------------------|--|--|---|
| Governmental Activities           | \$<br>10,458,665                                       | \$<br>(300,998)                                    | \$<br>10,157,667                        |
| Business-type Activities          | 8,569,412  | (147, 273)   | 8,422,139                               |
| Water and Sewer Enterprise Fund   | 1,341,921  | (14,706)   | 1,327,215                               |
| Refuse Collection Enterprise Fund | 854,567  | (36,026)   | 818,541                                 |
| Boat Harbor Enterprise Fund       | 6,217,283  | (96,541)   | 6,120,742                               |

#### Notes to Basic Financial Statements

## 12. Contingencies

#### **Grants**

The City has received grants which are subject to review and audit by the grantor agencies. Such audits could lead to requests for reimbursement for expenditures disallowed under the terms of the grant. Management believes that such disallowances for grants, if any, would not be material.

## 13. New Accounting Pronouncements

The Governmental Accounting Standards Board has passed several new accounting standards with upcoming implementation dates. Management has not fully evaluated the potential effects of these statements, and actual impacts have not yet been determined.

GASB 83 - Certain Asset Retirement Obligations - Effective for year-end June 30, 2019, with earlier application encouraged - This statement addresses accounting and financial reporting for certain asset retirement obligations that are legally enforceable liabilities associated with the retirement of a tangible capital asset.

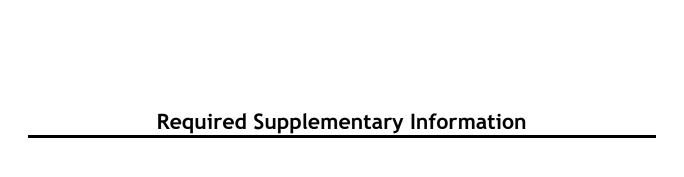

GASB 84 - Fiduciary Activities - Effective for year-end June 30, 2020, with earlier application encouraged - This statement addresses criteria for identifying and reporting fiduciary activities.

GASB 87 - Leases - Effective for year-end June 30, 2021, with earlier application encouraged - This statement addresses accounting and financial reporting for certain lease assets and liabilities for leases that previously were classified as operating leases. This statement establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset.

GASB 88 - Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements - Effective for year-end June 30, 2019, with earlier application encouraged - This statement addresses note disclosures related to debt, clarifies which liabilities to include when disclosing information related to debt, and defines debt for the purpose of disclosure. It requires additional essential information related to debt be disclosed in the notes, as well as information for direct borrowings and direct placements.

GASB 89 - Accounting for Interest Cost Incurred before the End of a Construction Period - Effective for year-end June 30, 2021, with earlier application encouraged - This statement requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statements prepared using the economic resources measurement focus.

GASB 90 - Majority Equity Interests - an amendment of GASB Statements No. 14 and No. 61 - Effective for year-end June 30, 2020, with earlier application encouraged - This statement addresses accounting and financial reporting for a majority equity interest in a legally separate organization. It provides a definition of a majority equity interest and provides guidance for further presentation as either an investment or a component unit, based on specific criteria.

<sup>\*</sup>Information for these years is not available.

## **Notes to Required Supplementary Information**

### 1. General Fund Schedule of Revenues, Expenditures, and Changes in Fund Balance

The General Fund Budgetary Comparison Schedule is presented on the modified accrual basis of accounting. The City did not budget for the PERS on-behalf contribution; however accounting principles generally accepted in the United States, require that on-behalf revenue and expenditures be reported in the financial statements, resulting in a budgetary to GAAP basis difference. The PERS on-behalf represents the only reconciling item from budgetary to GAAP basis.

# 2. Public Employees' Retirement System - Schedule of the City's Information on the Net Pension Liability

This table is presented based on the Plan measurement date. For June 30, 2018, the Plan measurement date is June 30, 2017.

There were no changes in benefit terms from the prior measurement period.

There were no changes in assumptions from the prior measurement period.

There were no changes in allocation methodology.

#### 3. Public Employees' Retirement System Pension Plan - Schedule of the City's Contributions

This table is based on the City's contributions for each fiscal year presented. These contributions have been reported as a deferred outflow of resources on the Statement of Net Position.

# 4. Public Employees' Retirement System - Schedule of the City's Information on the Net OPEB Liability

This table is presented based on the Plan measurement date. For June 30, 2018, the Plan measurement date is June 30, 2017.

There were no changes in benefit terms from the prior measurement period.

There were no changes in assumptions from the prior measurement period.

There were no changes in allocation methodology.

#### 5. Public Employees' Retirement System OPEB Plan - Schedule of the City's Contributions

This table is based on the City's contributions for each fiscal year presented. These contributions have been reported as a deferred outflow of resources on the Statement of Net Position.

Both pension tables are intended to present 10 years of information. Additional years' information will be added to the schedules as it becomes available.

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

Honorable Mayor and City Council City of Sand Point, Alaska

### Report on the Financial Statements

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Sand Point, Alaska (City of Sand Point) as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise City of Sand Point's basic financial statements, and have issued our report thereon dated January 24, 2019.

### Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City of Sand Point's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Sand Point's internal control. Accordingly, we do not express an opinion on the effectiveness of the City of Sand Point's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the City of Sand Point's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Anchorage, Alaska January 24, 2019

BDO USA, LLP

## Schedule of Findings and Responses Year Ended June 30, 2018

| Section I - Summary of Auditor's Results   |            |                                  |  |
|--|------------|----------------------------------|--|
| Financial Statements   |            |                                  |  |
| Type of auditor's report issued on whether the financial statements audited were prepared in accordance with GAA     | ۱P:        | Unmodified                       |  |
| Internal control over financial reporting: Material weakness(es) identified? Significant deficiency(ies) identified? | yes<br>yes | $\frac{X}{X}$ no (none reported) |  |
| Noncompliance material to financial statements noted?  | yes        | X_no                             |  |

There were no findings related to the financial statements which are required to be reported in accordance with the standards applicable to financial audits contained in *Government Auditing Standards*.

Section II - Financial Statement Findings Required to be Reported in Accordance with Government Auditing Standards
